

## Elite Master

The journey continues. The highest level of training Morter HealthSystem offers is the level of Elite Master. An Elite Master by definition displays a higher degree of knowledge, is the highest in rank, and is a leader and a winner!

B.E.S.T. Technique is designed to allow the inner potential of the practitioner to shine through for individual excellence. All healing comes from within the individual, and is only helped or facilitated by the practitioner. Being an Elite Master is about allowing that inner brilliance to emerge from a seedling into a beautiful flower. It is about the art of “listening” at the right time.

By learning to quiet the conscious mind and allow the healing force of Innate intelligence to prevail, true healing can occur. The art of self Mastery combined with technique Mastery can and will open the door to a level of self awareness and self actualization- the likes of which you may have seen in our other Elite Masters. Each of us chooses to incarnate right here, right now, in this physical being, and it is our mission to fully develop this gift of Mastery, which resides within each of us.

The Elite Master program lights the path to an enriched practice of B.E.S.T. It is a way of thinking and being, a more complete way of understanding the wondrous healing powers of the body, which can only be attained by reflecting on our own inner power.

This group of the B.E.S.T. Elite Masters, holds the principles of B.E.S.T. at the forefront of their practice and their lives. They embrace the unknown with a level of confidence that the answer is right there for the asking, right there to be received, if they only will listen.

Become and Elite Master and learn how to listen.
